THE SECRET IS OUT!

EXCLUSIVE!

2020 INSPECTION SOLUTIONS
INTERNACHI® CERTIFIED

Underground Sewer and Water lines are covered for 90 days from inspection from issues like collapse and tree roots. While your inspector may recommend a sewer camera inspections for some properties, on others where no drain backups or known issues are present this coverage will serve to protect against failures between your home and the municipal connection or well/septic systems. A sewer camera inspection with satisfactory results will automatically extend your coverage to 12 months.
